TIME TO KEEP LOW CLASS LABOR OUT.

There are evidences that the anti-Asiatic demonstrations in the west are going to eventually solve the problem out of which they grew. In other words, both Great Britain and the United States are now likely to give more attention to immigration and less to apologizing and explaining to Oriental governments for the wicked assaults on their subjects and their property.

The rioting in Vancouver, following that in San Francisco and Bellingham, Wash., and the evident determination of westerners to fight to the finish the further introduction of low class foreign labor into this continent has served, it appears, to impress the governments at Washington and London with the necessi salled by of taking action. And but one course seems to be open to them. The time has arrived when America, the land of opportunity, must be closed to aliens, whose presence here tends to unduly lower the standard of living of our own workingmen. We have come to the time when our expansive development is beginning to reach economic limitations and to no longer either demand or justify the importation of "cheap labor." We are entering the period of extensive development in the west, the same as was forced upon the east years ago, and with its arrival comes also the necessity of shutting down the gates of immigration, where the immigrant is below the American workingman in his wants and wages, and there is no hope of speedily raising ing post cards of residences, buildhim to higher standards.

He must be excluded; not merely hindered in gaining admission, but barred completely. Congress and our state department have already delayed action too long.

There has always been a weak and vascilating policy in dealing with the immigration problem. It has nev er been courageously faced by the government with a serious attempt to solve it along lines dictated by common sense and the peculiarity of American institutions. It has been put off until the inevitable evil day has at last arrived.

Something must now be done, not in a half-hearted, insincere manner, but effectually setting the immigration problem with a fair consideration of American interests, or else the west will become a battle ground of racial warfare.

RAILROADS AND POLITICS.

For some years the reliance of the railroads has been the United States courts, the United States senate and state senates, and now public opinion has had its effect on some of the judges and as the real equities of the people are being considered there is a very pessimistic feeling among corporation magnates. The same public opinion is bound to produce a reform spasm in the votes of some of the members of the United States senate, and already the state sena-

I tors in several states are falling over each other to be the first to declare for reduced rates.

Now, there is danger in this political management of railroads, and sensible people must turn their faces against those politicians who for political effect are ready to harrass the railroads, instead of being fair and just to them and the people alike. The public wants reasonable rates, good accommodations and safe transit for passengers and goods. No one but the socialists desire confiscation, and no sensible person desires rates so low as would tend to prevent a fair return on the money invested.

At the same time the railroads must play fair. They must reform their way of doing business and abolish the plundering of the inside companies, such as fast freight lines, collusion with contractors, and the Daily, three months.......... 1.25 bridge and terminal extortion and other soft snaps for the benefit of insiders. MAJORITY OF MORE THAN 62,000 CAST AGAINST ITS ADOPTION.

TUESDAY'S ELECTION IN CHICAGO

Inglish Taffeta Suiting-Another | Mayor Issued Statement Saying the Action of the Voters Was a Mistake-What the Charter Contained.

> Chicago, Sept. 18.—The new charter for Chicago authorized by the state legislature at its last session, was rejected by the voters at yesterday's special election by a majority of more than 62,000. Little more than half of the registered vote was east, final figures, unofficial, showing 59,466 ballots for the charter and 122,054 against it. The total vote polled was 181,500 out of a registered vote of 361,966.

> The light vote was due to some extent to the fact the election was a special one and the granting of time off from work for the purpose of voting was optional with employers. In the majority of cases voters were obliged to go to the polls before going to work or not vote at all. Mayor Busse issued the following statement last night:

a great majority of the people of sician at Henderson, Ky., and Chicago either do not want a charter or are not sufficiently interested in monial bliss, couldn't decide whom s Express company at that place, a new charter to go to the polls and Tillie Tolan really belongs to.

Says the Section Men Are Well Paid -Commissioners in Kansas Do the Walking Stunt Along the Various Lines.

"From Mr. George Gould down to the section foremen, the Missouri Paeific line from St. Louis to Kansas City is the particular care and pride of every man connected with it," declared E. A. Gould, general superintendent of the Missouri Pacific, in an interview with the Kansas City Poet Tuesday.

"That part of the system is in excellent condition save, perhaps, a few places which will be in the same condition before we have finished our work for the season. You know the farmers have always been prejudiced against parlor cars." "Why was that?" 'Well, they said the cars didn't look anything like parlors at all. That set us to thinking, so we fitted up several special parlor cars with wax fruit, horse-hair furniture and oldfashioned photograph albums and now you couldn't pay the farmers to ride in any other car but the parlor."

Grim Epitaph in Hungary.

What is the most terrible epitaph in existence? One of the grimmest is surely that on a stone which was set up a few years ago in the cemetery of Debrescin, eastern Hungary: "Here rest in the Lord Joseph Moritz, senior, who died in his 62d year. He was shot by his son. Frau Joseph Moritz, senior, who died in her 47th year. She was shot by her daughter. Elizabeth Moritz, who died by her own hand in her 17th year, after shooting her mother. Joseph Moritz, who died in prison, aged 27. He had shot his ty superintendents, each wearing the father. May eternal mercy have pity badge of her special office, grouped on their poor, sinful souls!" This memorial was erected by a local literary association to which, it is said, the last of the ill-starred family left a sum of \$7,500 for the purpose.

Married Women

Every woman covets shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive

to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this

great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful Mother's

remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about

this liniment, will be sent free.

Formerly Lived in Indianapolis, Where He Declares the Crime Was Committed, but Officers Doubt It.

Pittsburg, Sept. 18.—Shouting that he had caused the death of a man in Indianapolis, and that he fears vengeance of the man's relatives, Dr. Henry M. Kurchner, formerly of Indianapolis, is keeping the prisoners awake in Central police station here.

Dr. Kurchner, who appears to be about 40 years old, walked into Cen- TO MAKE STILL FURTHER EFFORT tral station and asked for lodging. He told Desk Sergeant Metz that he arrived yesterday, but did not say where he came from.

At that time Kurchnere was perfectly rational. Kurchner said that his relatives lived in Zenith, Pa. His fine appearance attracted notice of others about the public safety building, and he was questioned by Assistant Superintendent of Police Ken-

The man said that he had practiced in Indianapolis for several years. This summer he suffered from sunstroke, which he said caused temporary fits of insanity.

Kurchner was not placed in a cell, out given quarters in the police reserves' rooms. After supper he became violent and had to be removed

In his cell Kurchner raved, and for a time it was believed that he would have to be placed in a straight jacket. He cried continually that he had caused the death of a man in Indianpolis. He pleaded with the police to protect him from his supposed victim's relatives, as he believed they were after him, with intent to hang

The police tried to quiet Kurchner, and to put him to sleep opiates were administered, but they did not have any effect. He will be held and then turned over to the department of charities for removal to the city asylum for the insane. He will be kept there until his relatives can be found and other arrangements made for his

Indianapolis, Ind., Sept. 18.-Word Dull has surrounded them with a was received here from Pittsburg that Dr. Henry Karchner, of Indianapolis, is confined in a paddel cell in the jail there. He is said to have lost his mind and to be laboring under the delusion that he caused the death of one of his patients.

Local physicians who have been attending Dr. Karchner believe that his trouble is caused from blood poisening, contracted while treating a patient here recently. He is well known here. It is supposed he was en route to his family's home at Wilkesbarre.

Two months ago he quarreled with Mrs. W. A. McIlrath, across whose lawn he had driven. She had him arrested on a charge of assault and battery. The case has not yet come to trial. Postoffice inspectors from Cleveland recently arrived here and began investigating the charge.

McCalmont was delivering mail when he screamed and fell unconscious. He was taken to his home here, and when he recovered his senses it was found he apparently had lost the power of speech.

'TWAS A MONGREL DOG

That Summoned the Police and Saved a Man's Life.

New York, Sept. 18.-The intelligence of a mongrel dog and the ready aid of a policeman saved Antonio Petrucelli, a young butcher, from bleeding to death, a prisoner in his employer's ice box at 584 Morris ave-

nue, the Bronx. The young man went into the ice box with a big, sharp knife, and in trying to keep the door from closing

slipped and fell on the knife. The sharp blade cut an artery in the right thigh. He gave a loud

groan and became unconscious as the door slammed, imprisoning him.

Dick, the dog, realizing that his friend was in trouble, ran up the avenue barking, and at the corner circled around Policeman Wickman and Detective John O'Brien until he got thei: attenion.

Dick then led the way to the shop, barking and looking back constantly. The dog rushed up to the door of the ce box and howled. When the officers opened the door Petrucelli was near death. The hospital surgeons said he probably could not live through the night.

From Old Name, Although Thousands of Dollars Were Used in Effort -Happiest Catchword in the World.

Katy has returned, says the Denion Hedald.

After an absence of about two years the Katy girl has returned to decorate the advertising matter of the M., K. & T. railway. "Again the Katy Flyer, beginning Sept. 15th. These words were included in a mes age sent W. G. Crush, general pas senger and ticket agent of the Missouri, Kansas and Texas railway who is in Camden, N. J., where Mrs Crush is visiting, and will not return to Texas for some time. This was part of a message informing him that he term "Katy" would be used in the advertising matter furnished the newspapers, effective Sept. 15.

After having abandoned the term Katy about two years ago, the management of the road authorized the expenditure of thousands of dollars Reward. to change sign boards, hundreds of which had been placed in Texas and the southwest bearing such terms as the "Katy Flyer," the "Katy Route," etc. This "suppression fund" was also used to purchase extant copies of the widely known "Katy Girl," whose face appeared in lithographic prints, fine electrotypes and in fact all kinds of pictures, and was probably one of the best known faces in the entire country, and today anyone ossessing one of these beautiful pi tures prizes it very highly, owing to the mysterious disappearance of the picture and term in connection with the Missouri, Kansas and Texas rail-

The general offices of the "Katy" in Dallas have two of these pictures that were preserved, one being a photograph of the original Katy girl. while the other is a copy entitled "A Katy Girl."

The term of Katy as applied to the road was probably the happiest catchword ever introduced into the great advertising world of America. Even the higher officials of the road have had to admit that it has been impossible to rid the road of the

nickname by officially ignoring it. ed with Katy, liked Katy's ways, got on speaking terms with he as Katy, Guire was on the same boat, speaks of her as Katy, calls the road the Katy, and Katy it is, and Katy it will be, as the officials have decided to bow to the inevitable, submitting with as good grace as pos-

sible—same as if they liked it. When the picture was abandoned it gave the "yellow journals" chance to connect it with the escaades of a former general passenger agent who is now manager of some private manufacturing concern Canada, and a woman. These same journals said that the woman question was the original of the Katy Girl, but such is not the fact, for the Third,-Huston Coal Co. REGARDING RAILROADS

THE MISSOURI PACIFIC MUST GET BUSY ON ITS CEN-TRAL BRANCH.

COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

The board of railroad commissioners the meeting in Topeka yesterday made up the report of the inspection of the Central branch of the Missouri Pacific and sent it to A. W Sullivan, general manager of the system.

The tracks from Atchison to Stockton and to Lenora were inspected. The board found that the road needed many ties, the ballasting of the track over which the heaviest travel is carried, the raising of the track in everal soft places and the proper drainage of cuts.

The notice to Mr. Sullivan required that the improvements be made within ninety days from date of the notice, and advised him that at the expiration of that time a further inspection would be made, and if it is found that the road is not proceeding in good faith with the work required it would instruct its attorneys to file proper complaint.

The board found that the company had from 125 to 150 men at work on this line; that 180,000 ties for renewals had been contracted for by and will be in the city several days. the company; that up to date 25 per

stations along the line, and that its order in regard to bulleting of trains was being obeyed.

else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming. Leasingly delightful. Gently though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and descript it get red and Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.
